

LANCIA DELTA

CAMPIONE DEL MONDO - WORLD CHAMPION

OFF-ROAD RALLY-CROSS

La LANCIA DELTA è un automodello con avviamento a strappo studiato per coloro che si avvicinano per la prima volta all'automodellismo.

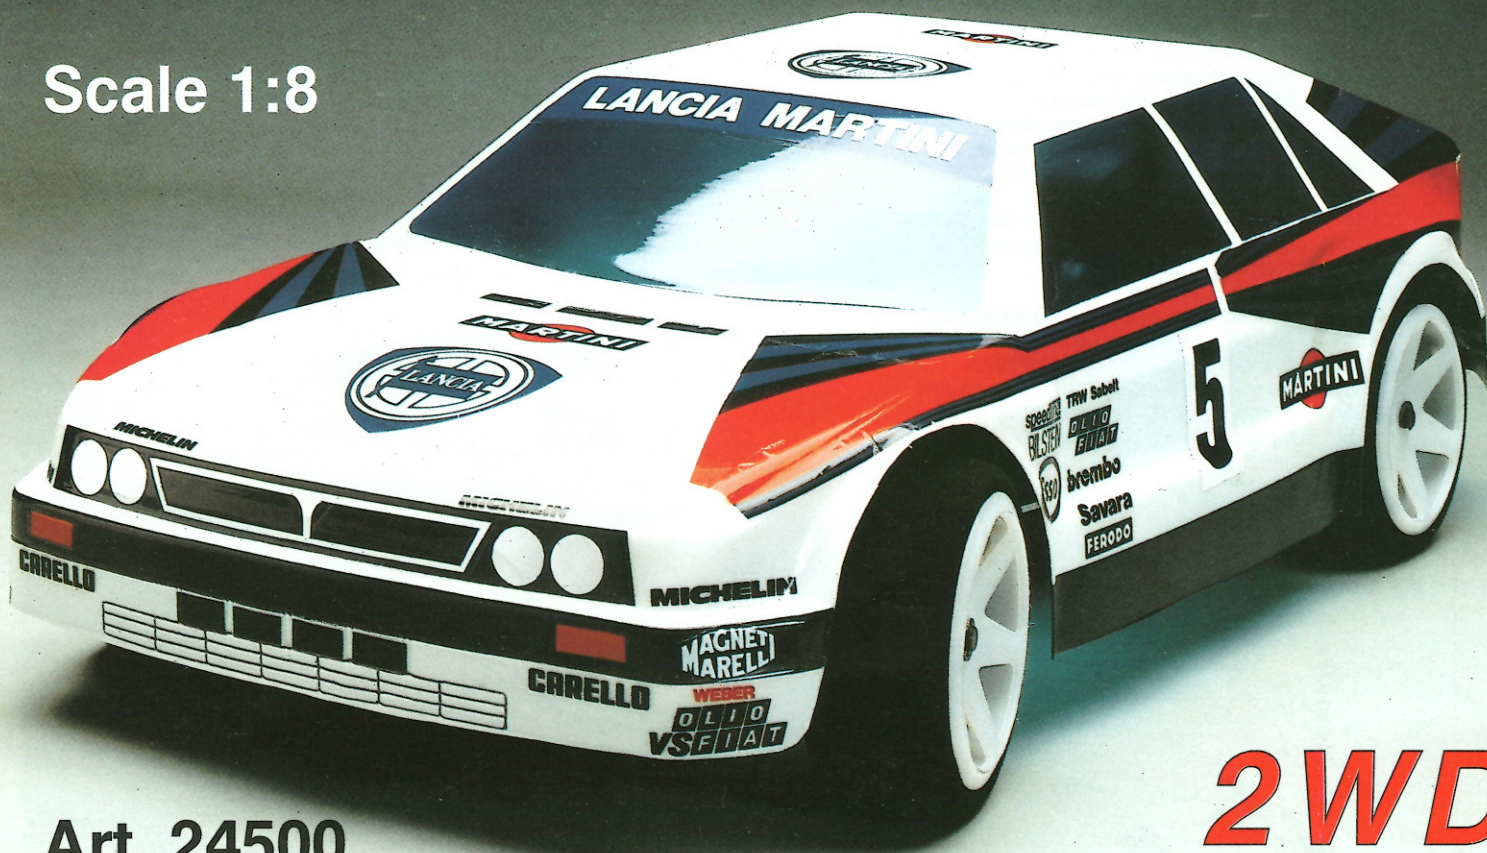

L'eliminazione della batteria a 12 volt e dell'avviatore a mano o in cassetta, rendono assai più semplice l'uso del modello. Il kit 4WD fornito come optional permette la trasformazione in quattro ruote motrici. Il nuovo sistema è stato ampiamente collaudato per lungo tempo realizzando anche un motore specifico. Per le sue caratteristiche tecniche, semplicità di montaggio e regolazioni, la LANCIA DELTA è destinata a diventare il modello degli anni '90.

The LANCIA DELTA is the model car, 1:8 scale, with hand strap starter system, mainly suitable for beginners. The 12 volt big battery & the electric starter are not any more requested, reducing the dependence from heavy & high cost devices. A 4x4 conversion kit from 2WD is available for the best performance of a 4WD. Then new system have been tested for a long time projecting a special engine for this purpose.

LANCIA DELTA mit Seilzugstarter und 3,5 cm³ Motor ist das ideale Einstiegermodell im Maßstab 1:8. Funktioneller, wartungs freundlicher Aufbau und ein ansprechendes Design sind die kennzeichnenden Merkmale. Ein integrierter Seilzug Starter erleichtert das Anlassen enorm und macht einen Elektrostarter mitsamt Batterie überflüssig. Der mitgelieferte 3,5 cm³ Motor ist mit Luftfilter und Schalldämpfer ausgerüstet. Das serienmäßig mit Hinterradantrieb betriebene Modell kann mit einem 4-WD Umrüstsatz.
