

TURBO JUNIOR

PEUGEOT 205

SCALE MODEL RALLY-CROSS 1:8

Il TURBO JUNIOR - PEUGEOT 205 è un auto-modello con avviamento a strappo studiato per coloro che si avvicinano per la prima volta all'automodellismo. L'eliminazione della batteria a 12 volt e dell'avviatore a mano o in cassetta, rendono assai più semplice l'uso del modello. Il kit 4WD fornito come optional permette la trasformazione in quattro ruote motrici. Il nuovo sistema è stato ampiamente collaudato per lungo tempo realizzando anche un motore specifico. Per le sue caratteristiche tecniche, semplicità di montaggio e regolazioni, il TURBO JUNIOR - PEUGEOT 205 è destinato a diventare il modello degli anni '90.

The TURBO JUNIOR - PEUGEOT 205 is the model car, 1:8 scale, with pull starter system, mainly suitable for beginners. The 12 volt big battery & the electric starter are not any more requested, reducing the dependence from heavy & high cost devices. A 4x4 conversion kit from 2WD is available for the best performance of a 4WD. Then new system have been tested for a long time projecting a special engine for this purpose.
